HOW TO CREATE A COURSE

1. Go to www.mymathlab.com and login.

2. Click “Create/Copy Course”

3. Select the following options:
   A. Copy a Course-You can copy an instructor’s course who gives you their ID.

4. Select the textbook.

5. Enter your course information (Course Name, starting date, ending date, etc.)
   Once course is created you will get a confirmation page with your course ID. The course ID is what you will need to give your students to register for your class.

6. Your course is now ready 😊
